Legal Observer Notice

Ms. Peterson and Those Concerned:

Please take Notice that associated Volunteers of the *PCU_/Free Assembly Project* will act as 'Legal Observers' in conjunction with a 'Rainbow' gathering in Routt National Forest, and other public forum sites where citizens may assemble for expression and prayer.

The undersigned and others – *including the Volunteer named below* – will cooperate in this capacity at various times and locations as needed during June & July 2006, acting within the scope and auspices of this Notice, and within the full rights of civic duty.

Where the work may involve first-hand witness and recording of official actions, it will be performed with decorum, and without interference. In turn, we require full access and reasonable proximity by sight & sound, and hold investigative work product in privilege – based on mutual protections of law, fair rules of engagement, and simple respect.

We will observe and document these events for purposes of public interest research, policy advocacy, and protection of First Amendment rights... in accord with the longstanding mission of *PCU_/Free Assembly Project*.

Thank you for your cooperation.

Respectfully,

Scott C. Addison, Coordinator
St. Louis, Missouri
