

## ShantiSena SkillShare ~ Discussion Notes, 13my20:

### I. OUTREACH & TEACHING - NEW TOOLS & VISIONS:

- Saul-Tea's video blogspot, up & running w/ selected clips:  
<https://shantisenaskillshare.blogspot.com/>  
~ working on scripts for on-site Performance, multimedia puppet show & video stage, taking it to the woods... go to the heavies & sillies with jest & influence, "bring the edge to the center".
- scottie launched online Shantisena Library, compiling refs & Rainbow lore:  
<http://www.free-assembly.org/resource/shantisena/>  
~ Suggestion: a new "Rap 911" on Shantisena emergency response  
~ Idea: a Plan for a series of topical workshops by conference call over the next few months, easily recorded and rendered as accessible podcasts.  
Lecture/Seminar format: 2-3 volunteers w/ special skills in that area would do a tight presentation (40-60 mins.), followed by Q&A & discussion.  
*Preliminary outline for 7 Workshops in the series... (see below\*\*)*
- Sibling sees a special topic - Scouting with Shantisena Eyes:  
~ Understand site features & hazards, optimal location of CALM & key services, water infrastructure & security, circulation plan & necessary evac/escape routes, etc. "Site has to be safe."

### II. AN IMMEDIATE SHANTISENA ISSUE:

- Rogue-Rainbow Risks in Idaho... the gathering could be quarantined, and NF areas are subject to fast Closure Orders. What if Bundy shows up?... preparedness of attendees is unknown, bad press is likely.
- Don J forebodings: 30 days to June 13, need observers... a segment of people want to come and Be the Rbw Gathering. They won't be able to do this w/ Covid cases up in Idaho. There may be a need for outside Shantisena crew to show up there.

—> Make this a topic for SS call next week.
